

FOGO is coming!

Your apartment will soon transition to a three-bin Food Organics and Garden Organics (FOGO) system.

Once you receive your new lime green-lidded bin, you'll be able to put food waste and garden organics in here so they can be processed into quality compost.

FOGO bins will be collected weekly. General waste bins will change to a fortnightly collection.

Each apartment will receive a kitchen caddy, compostable caddy liners and a FOGO in My Apartment guide.

Find out more about your FOGO service rollout by contacting your local government.

Get to know FOGO
